# A straightforward solution

Astrolabe's Concave and Convex Reamers provide an easy and reliable solution for the preparation of joint surfaces.

This specialized instrument case system ensures better matching surfaces for cup and cone arthrodesis preparation, and promotes a steady union with its high-performance cutting technology.

## Features

---

Straightforward  
procedure

---

---

AO coupling

---

---

Minimal  
instrumentation

---

---

Improved cutting  
flutes design for  
debris clearing

---

---

Cannulated for  
accurate reaming

---

---

Wide range  
of sizes

---

**INSTRUMENT  
CASE SIZES**

∅ 16 mm

∅ 18 mm

∅ 20 mm

∅ 24 mm

∅ 26 mm

# A complementary solution

A perfect pair with Astrolabe's 2,7 mm Forefoot System Plates and the compression screws from the 2,5 x 3,2 mm & 3,0 x 3,9 mm Cannulated Compression Screws System.

**2,7 mm FOREFOOT**

*E.G.: Plate MP Arthrodesis*

**2,5 x 3,2 mm & 3,0 x 3,9 mm  
CANNULATED  
COMPRESSION SCREWS**

*E.G.: C.C. Screw 2,5 x 3,2 mm*

# A wide-range solution

This complete solution for treating a variety of small joint indications has a wide range of cannulated reamer diameters in order to create a perfect matching hemispherical joint interface.

FOR OPTIMAL GUIDANCE  
WITH K-WIRES UP TO  
Ø 2,2 mm

# Convex Reamer

BASE REFERENCE	DESCRIPTION	QUANTITY PER SYSTEM	BASE SELL UNIT	QUANTITY PER PACKAGE	NON-STERILE UNITARY PACK XX.XX.XX.XXXXX.A	STERILE UNITARY PACK XX.XX.XX.XXXXX.S
09.21.01.00016	Reamer Convex Ø 16 mm AO Coupling	1	SC01	1	N/A	1 UN

The standard packaging is called Base Sell Unit. There are different types of packaging depending on the product and the number of implants in each one of them, as follows below. Some products also have individual packaging references and sterile packaging references (if available). This information is available in the columns to the right of each table as described at the top.

SC01 INDIVIDUAL PACKAGING	SC02 PACK WITH 2 UNITS	SC05 PACK WITH 5 UNITS	SC10 PACK WITH 10 UNITS	UN UNIT(S)
